

A global community jointly advancing sustainability reporting

Be at the forefront as a sustainability reporting consultant

Your role as a sustainability consultant or service provider is crucial to advancing sustainability reporting, and GRI relies on your expertise to educate organizations and continually improve the quality of their disclosure. Addressing your specific needs, the GRI Community will help you to stay at the forefront, facilitate practical learning and peer collaboration, while offering profiling and networking opportunities.

Join our global and inclusive network of organizations committed to corporate transparency, comprising of reporting companies, consultancies, academics and NGOs.

Benefits of joining the GRI Community

- Access a year-round program of in-depth **learning and knowledge-sharing** on sustainability reporting topics and trends.
- **Engage** with a global network of sustainability practitioners and experts.
- Gain **profiling and communication opportunities** to showcase your organization's commitment and contribution to corporate transparency.
- Receive a **discount on fees for GRI offerings**, such as training and events.

The GRI Community lets you stay competitive and deliver services that positively contribute to the quality of sustainability reporting. In this we are united and work towards the same goal.

By joining the GRI Community as a consultant, your organization can:

- Participate in live engagements and interactions.
- Learn from experts and practitioners.
- Broaden perspectives on the most current sustainability reporting topics and trends.

Moreover, you will directly support GRI's mission and work to develop and update the GRI Standards and influence the global debate on corporate transparency.

The GRI Community includes a wide range of experienced organizations that have been with us for a decade or longer, together with new members joining every month.

"The GRI community has provided a strategic platform to exchange information and create a real difference. If you want to better understand best practice and the brilliant insights into all the possibilities that the CSR reporting provides, we highly recommend to be part of this initiative"

Dr.-Ing. Thomas Fleissner, founder and CEO of DFGE - Institute for Energy, Ecology and Economy

GRI Community key facts:
