Course info

What is the GRI Professional Certification program?

The GRI Professional Certification Program is a comprehensive curriculum on sustainability, sustainability reporting and the application of the GRI Standards. It was designed to give sustainability professionals the opportunity to enhance their knowledge, skills and expertise in implementing the GRI Standards and to improve sustainability reporting quality.

Those who complete the required courses and pass the exam are awarded the title "GRI Certified Sustainability Professional" and are listed on the [GRI website](#).

How to use this directory

Use the navigation menu above to locate the GRI Certified Training Partners (CTP) by:

- 1) their ability to offer the GRI Certified Courses you need to prepare and unlock the GRI Certification exam and become a GRI Certified Sustainability Professional
- 2) A complete list of all GRI Certified Training Partners

The following three courses are needed to to prepare and then take the exam to become a GRI Certified Sustainability Professional. Use the "Course info" tab for further information.

- 1) Reporting with the GRI Standards
- 2) Integrating the SDGs into Sustainability Reporting
- 3) Reporting on Human Rights with the GRI Standards

Once these courses are successfully completed the GRI exam is available for purchase. The cost of the exam is €250. A discount of 25% is provided when completing the courses via a GRI Certified Training Partner bringing the cost to €187.50.

Reporting with the GRI Standards*

This course is designed for individuals seeking to gain a comprehensive understanding of the GRI Standards and how to use the Standards for best practice impact reporting. The course delivers a tailored learning experience that blends the theory of the GRI Standards with suggestions for their practical application. The course explains the structure and purpose of the GRI Standards and introduces the requirements for reporting in accordance with the Standards. It describes the process for identifying impacts and determining material topics, as well as how to report on impacts associated with each topic.

Course Content

- Introduction
- Part 1: The GRI Standards basics
- Part 2: The system of the GRI Standards
- Part 3: Reporting using the GRI Standards
- Part 4: Determine material topics
- Part 5: Report information
- Part 6: Final steps
- Final takeaways and wrap up
- Who is this course designed for?

This course is aimed at a wide range of users, from sustainability consultants, CSR specialists, and reporters to C-suite executives and students in the field of sustainability and CSR reporting.

What will you achieve?

When you have completed this course, you will be able to:

- Explain the structure and purpose of the GRI Standards
- Define the key concepts and reporting principles in the GRI Standards
- Identify the requirements for reporting in accordance with the GRI Standard
- Describe the process for identifying an organization's impacts and determining material topics
- Report contextual information about an organization and how it manages its material topics

Pre-requisites

The learner is encouraged to read the GRI Universal Standards before taking the course.

Reporting on Human Rights with the GRI Standards

This course provides an in-depth overview and analysis of how to report on human rights with the GRI Standards. The course offers a holistic view of the relevance of human rights and human rights transparency for organizations. It describes the key concepts and the process for identifying impacts and determining material topics in the GRI Standards related to human rights.

Course Content

- Introduction to the course
- Part 1: Introduction to human rights and human rights reporting
- Part 2: Fundamentals of the GRI Standards
- Part 3: Reporting expectations and disclosures for human rights set out in the GRI Standards
- Final takeaways and wrap up
- Who is this course designed for?

This course is aimed at new and existing reporting practitioners as well as the sustainability professionals that assist them. Other users of the GRI Standards, such as students, academics, data users, or policy makers who want to understand and gain practical knowledge on how to report on human rights using the GRI Standards are also welcome to take this course.

What will you achieve?

When you have completed this course, you will be able to:

- State the relevance of human rights and human rights transparency to business
- Describe the key concepts in the GRI Standards as well as the process for identifying impacts and determining material topics related to human rights
- Discuss the disclosures in the GRI Standards related to human rights, including the requirements and guidance
- Apply the GRI human rights-related disclosures by studying practical case studies

Pre-requisites

To be able to fully understand the subject matter, a working knowledge of the GRI Standards is recommended.

Integrating the SDGs into Sustainability Reporting

This training course explores the global sustainability challenges addressed by the Global Goals and defines the business case for engaging with the SDGs. It explains the role of sustainability reporting and how it contributes to sustainable development and the achievement of the SDGs. In addition, it interprets the current trends, challenges, and opportunities faced by organizations when it comes to reporting on the SDGs.

Course Content

- Introduction to the course
- Part 1: The role of business and sustainability reporting in enabling sustainable development
- Part 2: Reporting on the SDGs: current trends, challenges, and opportunities
- Part 3: Integrating the SDGs into Sustainability Reporting
- Conclusion and key take-aways
- Who is this course designed for?

This course is aimed at sustainability professionals who want to get a better understanding of how the UN Sustainable Development Goals could be integrated into sustainability reporting practices or are trying to embed the SDGs in sustainability reports.

What will you achieve?

When you have completed this course, you will be able to:

- Describe the global sustainability challenges that we face as well as the business case for engaging with the SDGs
- Explain the role of sustainability reporting and how it contributes to sustainable development and the achievement of the SDGs
- Interpret the current trends, challenges, and opportunities faced by organizations when it comes to reporting on the SDGs
- Integrate the SDGs into your reporting process by following the steps outlined in the publication 'Integrating the SDGs into Corporate Reporting: A Practical Guide', developed by the UN Global Compact and GRI
- Describe the reporting experiences of organizations in different sectors after examining their case studies

Pre-requisites

There are no specific pre-requisites for this course.

*The course "Reporting with the GRI Standards" is provided by all GRI Certified Training Partners.
